

Posting On Bulletin Boards and Grounds

Bulletin boards located in the Library are to be used for publicity about Library events and cultural events in the greater Zionsville and metro Indianapolis area.

Government agencies and organizations that are non profit may also post notices for programs or events on the bulletin board.

All notices for posting on any interior or exterior surfaces of all Library buildings and on Library grounds will be posted as space allows and require advance approval by the Library's Graphic Artist.

Oversized notices may be restricted in the interest of keeping space available.

Signs placed on Library grounds will be limited to those approved in advance and those promoting Library events. -
